The event is the perfect blend of brilliant thinkers who are re-imagining the future of medicine & a healthier lifestyle. We will reflect on individual and community aspects for a proactive impact on results-driven healthcare.

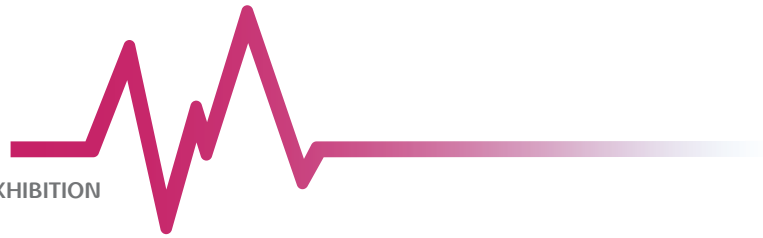

MEDinISRAEL will showcase exciting technologies such as wearable devices and mApps to gather data assets and artificial intelligence to make sense of it. Sensitive data protection from the best in the world Israeli cyber community, and amazing on-site diagnostic tools. Virtual and augmented reality for training, treatment & rehabilitation, technologies to drive hospital efficiency and the power of multi-disciplinary advanced manufacturing solutions.
